**DAY 1 | TUESDAY, 5 NOVEMBER**

### 07:00 - 17:30 | REGISTRATION

### 09:00 - 11:00 | SPECIAL INTEREST GROUP

#### CLINICAL TRIALS - SIG
Facilitators: OE Nnodu (Nigeria), OI Alatise (Nigeria)
- Programme
  - I Okoye (Nigeria) | Current status of clinical trial in Africa
  - A Ibraheem (United States) | Good clinical practice, ethics and regulatory issues
  - D Reidy (United States) | Design, conduct, analysis, and interpretation of Phase I-II clinical studies
  - J Smith (United States) | Design, conduct, analysis, and interpretation of Phase III-IV clinical studies
  - G Macaulay (Nigeria) | Drug discovery/development in Africa: opportunities and challenges
  - TBC | Clinical data management
  - OI Alatise (Nigeria) | Scaling up clinical trial in Africa

#### ADVOCACY - SIG
Facilitators: K Asante (South Africa), B Kithaka (Kenya), MJ Scroggins (United States)
- Programme
  - B Kithaka (Kenya) and MJ Scroggins (United States) | Summary of accepted proposal
  - K Asante (South Africa) | Establishing the AORTIC Advocacy SIG Steering Committee
  - TBC | How the SIG will interact with AORTIC governance
  - K Asante (South Africa), MJ Scroggins (United States), and B Kithaka (Kenya) | Next steps and closing

#### IPOS PSYCHO-ONCOLOGY PART 1 - SIG
Facilitators: C Asuzu (Nigeria), M Henry (Canada), L Travado (Portugal)
- Programme
  - C Asuzu (Nigeria) | Importance of communication skills in oncology and screening for distress as an essential tool to communication
  - M Henry (Canada) | Barriers and facilitators to communicating cancer diagnoses to patients in African cancer care: Study results
  - S Ndiaye (Senegal) | Communication and stigma
  - C NZizimira (Rwanda) | A palliative care physician's perspective on communication in the context of an African medical oncology practice

#### RADIATION ONCOLOGY: MEDICAL PHYSICS - SIG
Facilitators: S Grover (Botswana), H Simonds (South Africa), V Vanderpuye (Ghana), R Wong (Canada)
- Programme
  - Those attending this session must please bring laptops
  - D Ranganga (Rwanda) | Diagnostic applications of telepathology: issues with set up, quality assurance and quality control
  - R Namazi (Uganda) | The TCH Global Hope experience: the recipient country experience
  - N Ozuh (Malawi) | The TCH Global Hope experience: Programmatic organisation, execution and challenges from a sponsor’s perspective
  - V Straccia (Italy) | Diagnostic applications of telepathology: the APOF experience in the Horn of Africa

#### PATHOLOGY: THE ROLE OF TELEMEDICINE IN MANPOWER DEVELOPMENT - SIG
Facilitators: A Adesina (United States), M Botteghi (Italy)
- Programme
  - TBC | The role of telepathology in manpower development: definition, equipment, options and cost
  - D Ruhangaza (Rwanda) | Diagnostic applications of telepathology: issues with set up, quality assurance and quality control
  - A Adesina (United States), M Fitch (Canada), OA Oluwatosin (Nigeria), and M Fitch (Canada) | Understanding research from problem identification to publication – panel discussion with A Anarado (Nigeria), M Barton-Burke (United States), L Maree (South Africa), R Sego (Rwanda) and A Young (United Kingdom)

### 11:00 – 11:30 | REFRESHMENT BREAK AND EXHIBITION

### 11:30 - 13:30 | SPECIAL INTEREST GROUP

#### NURSING ONCOLOGY - SIG
Facilitators: M Fitch (Canada), OA Oluwatosin (Nigeria), NO Ohiene Oti (Ghana)
- Programme
  - C Marco (South Africa) and M Owusu Sekyere (Ghana) | Skills in caring for persons with Lymphedema
  - P Adejumo (Nigeria) and M Fitch (Canada) | Understanding research from problem identification to publication – panel discussion with A Anarado (Nigeria), M Barton-Burke (United States), L Maree (South Africa), R Sego (Rwanda) and A Young (United Kingdom)

#### HAEMATOLOGY (AORTICHORG) - SIG
Facilitators: C Williams (United States)
- Programme
  - C Williams (United States) | Introduction: Haematological malignancies in Africa: what we know, what we need to know, and exploring prospects for progress
  - S Mbuliaye (United States) | Opportunities for conducting genetic studies in the Epidemiology of Burkitt Lymphoma in East-African Children and Minors (EMBLEM): where we are, and where we move from here
  - N Othieno-Abinya (Kenya) | Pattern of occurrence of adult acute leukaemias in Kenya and identifiable risk factors
  - C Williams (United States) | Childhood acute lymphoblastic leukaemia in Nigeria: Evidence for a role in infection, and a comparison with global experience
  - C Williams (United States) | HTLV-I infection in health and disease: relative significance in global communities
  - MA Durosinmi (Nigeria) | Treatment Protocol for Acute Lymphoblastic Leukaemia in Nigerian children and young adults under age 30 years – an update
  - AA Oyekunle (Botswana) | Design and implementation of a spreadsheet-based clinical decision support system for busy chemotherapy clinics in a resource-limited setting
  - MA Durosinmi (Nigeria) and NA Othieno-Abinya (Kenya) | Targeted therapy of chronic myeloid leukaemia in Africa: examples of success in international collaboration

#### IPOS PSYCHO-ONCOLOGY PART 2 - SIG
Facilitators: C Asuzu (Nigeria), M Henry (Canada), L Travado (Portugal)
- Programme
  - P Parker (United States), S Banerjee (United States), L Travado (Portugal) | Doctor-patient communication skills training

#### RADIATION ONCOLOGY - PART 2 - SIG
Facilitators: S Grover (Botswana), H Simonds (South Africa), V Vanderpuye (Ghana), R Wong (Canada)
- Programme
  - Those attending this session must please bring laptops
  - O Balogun (Nigeria) | Breast cancer case
  - R Wong (Canada) | Rectal cancer case
  - S Grover (Botswana) and V Vanderpuye (Ghana) and H Simonds (South Africa) | RT SIG future plans and activities
### UROLOGY - SIG
**Facilitators:** F Chinegwundoh (United Kingdom), SM Gueye (Senegal), M Jalloh (Senegal), A Kahie (Kenya)

- **Programme**
  - Kamadoujou (Cameroon): Laparoscopic retroperitoneal radical prostatectomy video, followed by Q&A
  - M Jalloh (Senegal): Prostate cancer epidemiology in Sub-Saharan Africa, followed by Q&A
  - F Chinegwundoh (United Kingdom): Prostate cancer in men from African descent in the UK, followed by Q&A

### MR1 IMPROVING ACCESS TO CANCER CARE THROUGH PATIENT NAVIGATION
**Facilitators:** E Krisel (United States), K McComb (United States)

- **Programme**
  - Patient navigation, a standard of cancer care in the United States for the last 30 years, is a patient-centered intervention that offers personal guidance to patients, their families, and caregivers as they move through complex health care systems. The goal of patient navigation is to reduce the myriad barriers patients face to achieving timely diagnosis and completing treatment. The American Cancer Society has partnered with Kenyatta National Hospital and the Uganda Cancer Institute, two large national referral hospitals, to design and implement two of the first comprehensive treatment navigation programs in Sub-Saharan Africa. This session will include a panel discussing the experience to date devising responsive patient navigation programs in these two settings as well as a presentation on ACS' plans to facilitate the design and uptake of patient navigation in other cancer care systems in low-resourced settings in the future.

  - Panelists: E Munyoro (Kenya), S Musomi (Kenya), G Mukos (Kenya), G Omulogoli (Kenya), V Walusansa (Uganda), O Amos (Uganda), M Kaur (Uganda)

### MR2 PALLIATIVE CARE - SIG
**Facilitators:** M Gyakobo (Ghana), MA Ojing (Uganda)

- **Programme**
  - Gyakobo (Ghana): Session introduction
  - G Rodin (Canada): Palliative care in global health: comparing service delivery in developed and low resource settings
  - C Ntizimira (Rwanda): The city cancer challenge: a new paradigm shift to address humane cancer care
  - J Cleary (United States): TBC
  - AM Nyakabau (Zimbabwe): Cancer palliative care model for Zimbabwe
  - Gyakobo (Ghana): Balancing controlled medicines availability, diversion and misuse: lessons from the programme "Response to Drugs and Related Organised Crime in Nigeria" Discussion

### MR3 MEDICAL ONCOLOGY - SIG
**Facilitators:** N Hammad (Canada), V Vanderpuye (Ghana)

- **Programme**
  - Marten (United States): Chemotherapy delivery capabilities in sub-Saharan Africa: current realities and future considerations
  - Y Suliman (Sudan): Management of Febrile Neutropenia in resource constrained settings: should we create resource appropriate pathways to manage patients?
  - B Gwawali (United States): The increasingly complex world of systemic therapy: optimising patients' management in the setting of limited resources - model of colorectal cancer and lung
  - Ezi (Kenya): Future of clinical vs medical oncology in the continent: pros and cons
  - S Mwanz P (Kenya) and N Hammad (Canada): Q&A
  - A Musi (Kenya): Debate: hindrances to completing systemic therapy cycles in different African regions
  - Fadelu (United States): Summary of debate findings

### MR4 UIICC AND WHO CERVICAL CANCER INITIATIVE
**Facilitators:** J Torode (Switzerland)

- **Programme**
  - Kamadoujou (Cameroon): Laparoscopic retroperitoneal radical prostatectomy video, followed by Q&A
  - M Jalloh (Senegal): Prostate cancer epidemiology in Sub-Saharan Africa, followed by Q&A
  - F Chinegwundoh (United Kingdom): Prostate cancer in men from African descent in the UK, followed by Q&A

### PLENARY SESSION

**TUMOUR BOARDS IN AFRICA: HOW TO OPTIMISE THE FULL PARTICIPATION OF ALL MEMBERS OF THE MULTIDISCIPLINARY TEAM**
Facilitators: N Hammad (United States), K Hopkins (Austria), L Muchiri (Kenya), N Ndlovu (South Africa)

**WOMEN IN GLOBAL ONCOLOGY**
Facilitators: TAbdulkareem (Nigeria), R Anarlu (Nigeria), C Stefan (South Africa)

**BURKITT'S LYMPHOMA**
Facilitators: S Mbulaiteye (United States), V Vedham (United States)
Supported by NCI

**LIGHTNING TALKS 1: EPIDEMIOLOGY**
Facilitators: P Fernandez (South Africa), M Jalloh (Senegal), D Ramogola-Mashile (Botswana)

**LIGHTNING TALKS 2: HIV-RELATED CANCERS; SITE-SPECIFIC CANCERS**
Facilitators: O Awolude (Nigeria), S Dryden-Peterson (Botswana), N Ndlovu (Zimbabwe)

### PROGRAMME

**M Ezi (Kenya)** | Tumour boards in Africa: an experience of an academic centre in Kenya
**S Ka (Senegal)** | Surgical oncology in tumour boards in Africa: our experience in Senegal
**K Hopkins (Austria)** and N Ndlovu (Zimbabwe) | Virtual tumour boards in Africa: an emerging vital tool
**V Vanderpuye (Ghana)** | Continent of the Digital Skip: My WhatsApp tumour board
**M Kitonyi (Tanzania)** | Tumour boards in Africa: Trainee perspectives

MR1 EXPLORING THE ROLE OF CIVIL SOCIETY IN ADDRESSING THE GROWING CANCER BURDEN
Facilitators: A Chybisov (United States), K McComb (United States)
Sponsored by American Cancer Society

Programme
Civil society organizations around the world play a critical role in addressing cancer. They educate people on cancer risk factors, provide screening, refer patients for treatment, provide support services to patients and families, and advocate for more resources and better access to care so that cancer can be prevented or treated effectively. Despite their important role in fighting cancer, strong, effective and connected organizations are in short supply in many LMIC where cancer is a relatively new yet rapidly growing health threat. This panel will discuss the ways in which the cancer civil society community has grown in Kenya and Uganda over the last five years, due to investments made to systematically develop organizational capacity, and improve coordination, including the development of national umbrella body organizations.

Panelists: C Wachira (Kenya), C Sitati (Kenya), J Kilonzo (Kenya), TBC (Uganda), P Ebusu (Uganda), Z Bernacca (Uganda)
