CANCER IN AFRICA: APPROACHES, COLLABORATIONS, IMPACT.

dakar, senegal

7-10 NOVEMBER 2021

ANNOUNCING: AORTIC 2021

The African Organisation for Research and Training in Cancer will host its 13th International Conference on Cancer in Africa from 7 to 10 November 2021 in Dakar, Senegal.

about the aortic 2021 conference

In 2021 AORTIC will host its 13th International Conference on Cancer in Africa. Recognised as the most significant cancer conference in Africa, AORTIC attracts participants from around the continent and the world for information sharing, the presentation of new data, and the establishment of collaborations. The theme, “Cancer in Africa: Approaches, Collaborations, Impact”, informs the four-day programme developed by an internationally representative Scientific Programme Committee.

In recognition of the uncertainty that the COVID-19 pandemic continues to cause, we are introducing a livestreamed programme that will combine both in-person and virtual conference attendance. The benefit of this is that we can reach more cancer professionals around Africa and indeed the world.
